

# Contaminated Currency

**The storm may be over, but contaminated currency may remain. If you have contaminated cash, Brink's can help you safely remove and deposit your contaminated currency.**

Any currency or coin left in cash registers, safes, or ATMs that has been exposed to floodwaters may be contaminated following a natural disaster. Contaminated currency poses a serious health hazard to those who attempt to handle it without the proper safety measures in place.

#### **Contaminated currency- Pickup/Hazardous Extraction & Processing**

No service is guaranteed. Service is not available in all areas. Service response times may vary. Dedicated routes with proper equipment and training will be servicing sites on a case by case basis.
